Father nutrition

Poetry

This is father nutrition
With all of the permission
Brings to man healthiness
Without any condition

Try understanding well
Neither buy it either sell
This is not of physics law
Listen you must just smell

This is science of person
Otherwise it’s a poison
Adjust yourself practice
It is a pace of season

Demanding all of science
Rolling like ball of science
Bio Chemistry Math are
A part of hall of science

Do not hear the public
Could it be full of cyclic
Follow the rhyme herewith
Listen grab the garlic
