EVA LA

The EVA LA Group is an academic and educational unit created with the goal of disseminating scientific information, acquired knowledge and evidence based studies as an essential resource in meeting international standards and improving patient care.

The First EVA LA meeting was organized by 12 anesthesiologists within CLASA from different Latam countries in Rosario, Argentina in December 2012 with 120 participants.

The course profile contains a full array of techniques, teaching methodologies and devices, in the form of plenary sessions, roundtable discussions, clinical scenarios and simulation workshops as well as hands on workshops in fiberoptics, videolaryngoscopy, supraglottic devices, ultrasound, pediatrics and surgical airway techniques.

EVA LA teachers come from all the member countries of Latin America, as well as invitees from Europe and United States of America. To date EVA LA has trained more than 2000 anesthesiologists in the region.

EVA LA plans to offer 6 courses a year in order to train 1000 anesthesiologists annually.

Where have the EVA's been held?
