

T1- Crude Hexane Extract

T2- Crude Ethanol Extract

T3- Dithane (Positive Control)

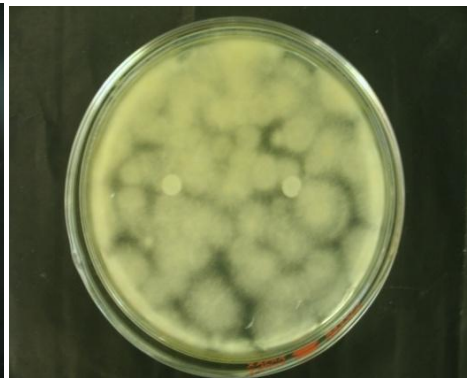

T4- DMSO (Dimethyl Sulfoxide) negative control

Appendix I Zone of Inhibition exhibited by all the treatments against *A. flavus* at 72nd hours of incubation.

T1- Crude Hexane Extract

T2- Crude Ethanol Extract

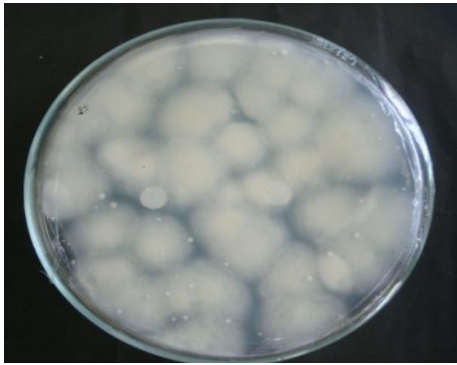

T3- Dithane (Positive Control)

T4- DMSO (Dimethyl sulfoxide) negative control

Appendix J Zone of Inhibition exhibited by all the treatments against *A. flavus* at 96th hours of incubation.

T1- Crude Hexane Extract

T2- Crude Ethanol Extract

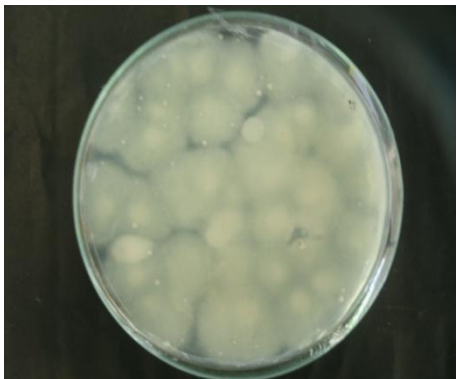

T3- Dithane (Positive Control)

T4- DMSO (Dimethyl sulfoxide) negative control

Appendix K Zone of Inhibition exhibited by all the treatments against *C. lunata* at 48th hours of incubation.

T1- Crude Hexane Extract

T2- Crude Ethanol Extract

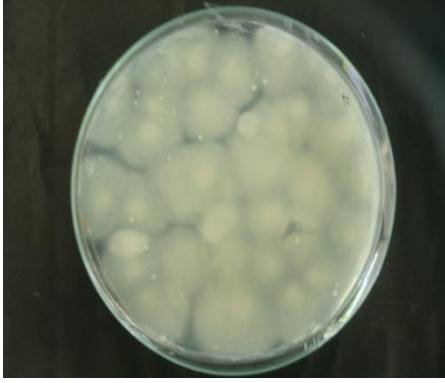

T3- Dithane (Positive Control)

T4- DMSO (Dimethyl sulfoxide) negative control

Appendix L Zone of Inhibition exhibited by all the treatments against *C. lunata* at 72nd hours of incubation.

T1- Crude Hexane Extract

T2- Crude Ethanol Extract

T3- Dithane (Positive Control)

T4- DMSO (Dimethyl sulfoxide) negative control

Appendix M Zone of Inhibition exhibited by all the treatments against *C. lunata* at 96th hours of incubation.
