

Poems of art

Poetry

Poem coming from heart
Message brings full of art
Pragmatic become, but
Do not ignore be smart

The more we say from art
The less you get from dart
Grab meaning of the words
To sit relaxed in the heart

You need become an artist
Before coming scientist
Listen to arts carefully
Grow be thus activist

The way we look into life
Reflects the man into wife
Learn on loving for the good
To be the good ever rife

The last but not though the least
Grab the means of the list
Become the wise of the day
To be happy not the hist.^{1,2}
