## Opinion

This is a book which should be sent to every pastor, principal, teacher and member of every school board. Twelve chapters by six authors contribute much to the critical analysis of the so called “sexual liberation” which has been ongoing since the 60s and before.

The book proves false the preposterous promises that sex without-consequences leads to fulfillment, happiness, and a free society of satisfied people. To the contrary, one will recognize how polluted is the human species in terms of nature and natural animal behavior. *Modern Sex* places humans totally out of synchrony with life as it is meant to be.

For an example, *one* will recognize how females of the species have adopted a male sexual style — a phenomenon not possible for any species if it hopes to survive within the animal kingdom. For all species on the planet, the males respond to appropriate sexual stimuli from the females that it is time for reproduction.

The genitals are for reproduction in the animal kingdom, but not for humans as we find out in *Modern Sex*. Now human females want “ejaculation” because they have found masculine fulfillment with their atavistic pseudo-ejaculation response known as “orgasm.” Meanwhile the rest of the females in nature maintain real female satisfaction by fidelity to reproductive potential or unitive significance when in sexual activity. For the male, intercourse is the end. For the female, it is the beginning. But not with “modern sex.”

Sex is part of the reproductive system. It is not the recreation system. It is not the social fulfillment system. It is not the “whoopie” system. But for humans, what sex has become is anything that gets ejaculation for males or pseudo-ejaculation (orgasm) for females. Any technique, any partner, any age, any creature or object is now fair game in what is a planetary pansexual psychosis. No other conclusion is possible when nonmarital sex is promoted as this book makes clear.

Of course, the voyeurs and promoters of “sexcretion” (“sex activity” for “relief” rather than reproduction) claim pan sexuality is the human norm. Such is a delusion whereby editors, publishers, and performers sexualize everything to attract attention and sell whatever they are selling, be it beer or ideas. When it comes to the American press and media, sex is in the eye of the beholder.

Sex is the imposition by press and media for everything, everywhere, such that sexcretion is a plague affecting all, even our priests and religious. Contrary to the press’ protestation about

supposed pedophilia by priest, the press revels in it. They have created it and they want it to continue because it is easier emphasize whatever they are selling. The press and media reaping, as the rest of society, what the press and media h: sown. It is pure degraded paganism. A good example from book is the “documentary” movie: *World’s Biggest Gang Book* shown at the 1999 Sundance Film Festival, where a worn scripted and produced a film of herself having sex with 251 in a single day. Whatever, the so-called “free press” today is reason to defend the First Amendment or die for America.

*Modern Sex* articulates the consequences and extremities the sexual revolution. Until something is done, all our children are going to be kidnapped by these First Amendment sex addiction.

Again, this book should be in the hands of every pastor, principal, teacher and school board member.

## Acknowledgments

None.

## Conflicts of interest

The authors declare that there is no conflict of interest.
